

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

PURCHASED GAS ADJUSTMENT)	
FILING OF THE UNION LIGHT,)	CASE NO. 8373-B
HEAT AND POWER COMPANY)	

O R D E R

On April 16, 1982, the Commission issued its Order in Case No. 8373, approving certain rates and providing for adjustments of these rates on a quarterly basis in accordance with the provisions of the Gas Cost Adjustment clause set forth therein.

On September 1, 1982, The Union Light, Heat and Power Company ("Union") filed its quarterly gas cost adjustment which is to become effective October 1, 1982, and is to remain in effect until January 1, 1983. This cost adjustment includes an increase from Columbia Gas Transmission Corporation ("Transmission").

On September 23, 1982, Union filed a revised gas cost adjustment due to its supplier, Transmission, filing a revised notice on September 21, 1982.

After reviewing the evidence of record and being advised, the Commission is of the opinion and finds that:

1. Union's notice of September 1, 1982, and its revised notice of September 23, 1982, set out certain revisions in rates which Union proposed to place into effect, said rates being designed to pass on the wholesale increase in gas costs in the amount of \$8,577,182 or 6.35 cents per 100 cubic feet.

(2) The Public Service Commission is being asked to authorize a pass-through of a price increase already approved by the Federal Energy Regulatory Commission ("FERC"). Failure to allow this increase to be passed through to its retail consumers on a timely basis would be unfair and unjust to Union and would ultimately result in higher rates to its consumers. The Commission has (in writing) indicated its opposition to the procedures and regulations used by FERC since 1975 to approve these supplier increases.

We are also actively presenting our views to FERC and to our Kentucky Congressional delegation concerning revisions to the Natural Gas Policy Act of 1978, which allows gas suppliers to raise their gas prices without regard to costs. Because of Natural Gas Policy Act formulas allowing producers to so raise their prices and because of the action of FERC in allowing such increases to pass through to the transmission company and through it to the distributing company, in this case Union, this Commission has no real authority in the matter. Under federal law and actions, this Commission serves merely as the conduit for the final pass-through of the increased cost of gas to the consumers when, as here, the distributing utility makes no profit from the increased prices which it must pay for gas purchased from the transmission company.

(3) Union's increase from Transmission is another one of those federally-mandated pass-throughs of higher gas prices in which upon the record this Commission has no discretion.

Union will not realize even one cent of profit but simply will turn over to its supplier the increased amounts which it must collect from its consumers.

(4) The proposed rates will allow Union to recover only the increased cost of wholesale gas and will not permit it to make any profit in doing so. The magnitude of this filing exposes Union to substantial under-recovery of its gas costs if the rates are not implemented in a timely manner.

(5) Union's adjustment in rates under the purchased gas adjustment provisions approved by the Commission in its Order in Case No. 8373 dated April 16, 1982, is fair, just and reasonable, in the public interest and should be effective with gas supplied on and after October 1, 1982, subject to refund.

IT IS THEREFORE ORDERED that the rates contained in Appendix A be and they hereby are approved, effective for bills rendered on and after October 1, 1982, subject to refund.

IT IS FURTHER ORDERED that within 30 days after the date of this Order, Union shall file with this Commission its revised tariff sheets setting out the rates authorized herein.

Done at Frankfort, Kentucky, this 8th day of October, 1982.
